Sofia, Bulgaria, Tuesday, Sept. 7, (Via Berlin and Leides) To Tuckerton, N. J., Sept. 9.—According to information received from reliable sources the allies are now concentrating large forces, including heavy landing artillery, for a general attack on the Dardanelles.

The presence of mine sweepers at Sestos Bahri, at either entrance to the straits is regarded as forewarning increased activity, including a vigorous bombardment of the outer Dardanelles forts.

Berlin, Sept. 9, (Via London, 5:30 p.m.)—An important victory in the Argonne was announced today in the war office. French positions over a front of one kilometer (0.6 miles) and 20 yards deep were captured.

The war office also announced that in the Zeppelin raids over England on Tuesday and Wednesday nights bombs were dropped on docks and other port establishments in London and vicinity. The German airships returned safely.

London, Sept. 9, (12:30 p.m.)—For the first time in many weeks the Russians, according to their own statements, have inflicted a severe defeat on their opponents. The battle of Tarnopol, 75 miles east of Lemberg and near the Galician frontier, while not conclusive, is regarded as England as indicating that the Russians are reaching the stage where they propose striking back after their long retreat.

The Teutonic forces engaged in this battle included not only Austrian, but German troops. The Russian report states that 3,000 prisoners, exclusive of the dead and wounded, measure the extent of their victory, and that it would have been more辉煌 but for their inferiority in numbers.

London, Sept. 9, (6:30 p.m.)—Washington, Sept. 9, (2:55 p.m.)—The raid of Zeppelin last night is described by the Pall Mall Gazette as "London's first glimpse of the war at close quarters."

The Evening Standard speaks of the goodness shown everywhere, but warns the public against the noticeably widespread and dangerous disposition to regard the affair as a species of spectacle.

It suggests that in addition to the Zeppelin, which within limits, "is a terrible instrument of war," there is also danger from anti-air craft guns.

Therefore, the public, it says, would be well advised to take aerial warfare more seriously than it did last night.

Washington, Sept. 9, As late as 1 o'clock this afternoon no dispatches had been received at the state department from Ambassador Page or Consul General Blawie on the Zeppelin raid on London and officials did not know whether Americans had been harmed or endangered. As the raid was over a section where many Americans gather, there was some apprehension.

London, Sept. 9, (6:30 p.m.)—There were no Americans among the Zeppelin air raid victims, the American embassy and the American consulate report this afternoon.

Today's War Summary

Last night's Zeppelin raid on London and the English coast resulted in the killing of 29 persons and the injury of 86 others. This makes a total of 33 persons killed and 125 injured in the raids of two successive nights.

A dispatch from Berlin carries the report that the British steamer Southland, formerly the Red Star liner Valdarno, which was serving as a transport, has been torpedoed in Turkish waters. A message from Sofia in way of Berlin last week reported the sinking by a mine of an unnamed British transport at the entrance to the Dardanelles.

Cancellation of Archibald's passport is the first official action in a diplomatic situation which it has been suggested might possibly extend so far as to cause the departure of Dr. Dumba from this country.

Dr. Dumba has made his explanation to Secretary Lansing, saying the only instructions from his government were to give widest publicity to the decree announcing enforcement of the Austro-Hungarian ban against subjects who engaged in the manufacture of war munitions for their country's enemies.

The department of justice is expected to turn the Archibald matter over to United States Attorney Marshall at New York when Archibald reaches this country. Officials pointed out that if Archibald is able to show that he knew nothing of the contents of the papers he carried the government may not be able to make a case.

Violent attacks in the Argonne region were renewed last night by the Germans, who threw heavy forces of infantry against the trenches near Fontaine Aux Charmes. Paris declares that except for the taking of one section of trench the German attack failed.

French airmen continue their bombardment of German lines of communication, dropping bombs on railroad stations to the rear of the battle front.

Home, in its latest statement, claims an Italian advance in Caudore which, however, stopped before strong defenses erected by the Austrians.

The Russian war office in its current communication claims an important success near Tarnopol in Galicia. The defeat of two German divisions and an Austrian brigade and the capture of more than 8,000 prisoners, 30 cannon and many machine guns is recorded.

Vancouver, B. C., Sept. 9.—An announcement was made today that the attorney general of British Columbia had laid indictments for manslaughter against Thomas Graham and J. H. Tonkin, two of the most prominent mining men in Canada. They will not consider it before tomorrow and arrangements for the loss of nineteen lives in the Reserve mine near Nanaimo on February 15 last.

Graham is chief inspector of mines for the provincial government. Tonkin is manager of the Pacific Coast Coal company, which has large collieries at Nanaimo and large selling depots in San Francisco and other coast cities.

A wall 199 feet thick was supposed to separate the Reserve from the old workings of the South Wellington mine, which had been flooded for years. A blast in the Reserve broke the wall into the South Wellington mine and 19 miners were drowned in the flood which poured through the opening.

It was found, it is asserted, that Tonkin had been directing operations to separate the Reserve from the old workings of the South Wellington workings. The copies had been drawn to a different scale from the originals, and the wall of 199 feet, which was supposed to exist, was raised up. It is said, as a result of difference between the maps, Tonkin, it is alleged, could easily have obtained the original Graham, it is said, left everything to Tonkin.

Further developments in the case today awaited receipt of certain documentary evidence which President Wilson and Secretary Lansing are expecting from London. Those closest to the president describe his attitude as being very reluctant to take initial action and hoping that the situation would be relieved by the action of the ambassador himself or his government.

Washington, Sept. 9, (12:30 p.m.)—Secretary Lansing has cancelled the passports of James F. J. Archibald, the American correspondent whom British officials are to service men found communications from Dr. Constantine Dumba, the Austro-Hungarian ambassador to his foreign office, on the subject of fomenting strikes in American ammunition plants. Archibald is now at Rotterdam and American Minister Vandike has been instructed to issue an emergency passport to permit his return to the United States, when the department of justice probably will be called on to decide if he has violated any law of the United States in acting as a messenger for one of the European belligerents.

HINDUS AND CHINESE HAVE TERRIBLE TRIP

Calexico, Calif., Sept. 9.—Thirty Hindus and Chinese, survivors of a party of fifty-seven landed by a British vessel below the mouth of the Colorado river, fourteen days ago, were safe in Mexican, Lower California, today after a terrifying experience in the desert below the international line.

The survivors, who were rescued by soldiers of General Esteban Cano, military governor of Lower California, said that the British ship's captain refused to bring them to the United States, landing them instead on an island forty miles south of the mouth of the Colorado river. In small boats the party made their way to the mainland of California. Then with scant supplies of water and food they started to cross the desert.

Hunger and thirst soon assailed them, and one by one the weaker members dropped in the sand and were left by the survivors. Two of the latter managed to reach Mexican four days ago and Calvo sent a detachment of soldiers to the rescue.

BULGARIANS ENGAGED IN FORTIFYING DEBEZHATCH

Paris, Sept. 9, (4:50 p.m.)—According to a dispatch to the Times from Debezhatch, the Bulgarians are actively fortifying that port and its environs. Heavy guns are being placed at all strategic points, the ditch walls, eighteen large pieces having been taken through the city last night.

The advance sale of night season tickets for the state fair is nearing the mark set by President Pitney as necessary to insure the success of the fair. "Buy now, and buy big" was the word the ticket sellers carried with them in their campaign today, and it got results.

The rest of the state is watching this advance sale. It is the marker of Alpine enthusiasm and re-operation in state building and its successful results means corresponding enthusiasm, cooperation and attendance from outside this city.

In order that no one may be overlooked or slighted in the night season night campaign, the ticket committee this morning established sub-stations at the following places:

Motors.

Strauss's Book Store.

Pete Candy Store.

The night season tickets may be obtained from these sub-stations, while the selling committee is on, also at our headquarters in the Parson Building.

If by chance the committee have missed you don't be perturbed. It was unintentional, and the tickets are to be had without bid of trouble.

Remember, "Buy now and buy big."

CITIZEN OF SAN BENITO HAS THRILLING EXPERIENCE

Brownsville, Texas, Sept. 9.—Bandit waylaid Daniel Robertson, a prominent citizen of San Benito, eight miles from town last night and fired about 20 shots at him as he passed along the road in his automobile. One bullet passed through his hat, another through the seat of the machine and the machine out of commission. Robertson, who was alone in the car, jumped into the brush and escaped.

Negro Convention Breaks Up in Wild Riot

Colored Baptist Convention, Feature of Lincoln Jubilee Celebration Stopped by Injunctions and Police.

(By Evening Herald Leased Wire)
Chicago, Sept. 9.—A police guard and the serving of an injunction were unlocked for developments at today's session of the Negro National Baptist convention.

The injunction was served on the Rev. E. C. Morris of Texarkana, Ark., president of the convention. It restrains him from speaking at the convention or taking any other active part in the proceedings.

The trouble began at the first session yesterday. Mr. Morris ruled out of order a motion to consider a new charter for the organization and Mr. Morris and his adherents left the hall.

Today he returned and had been addressing the delegates for half an hour when the restraining order was served.

After reading the document Mr. Morris left the hall.

The meeting grew more disorderly when Jones, the temporary chairman selected yesterday when Morris left, took the gavel. Delegates all over the hall were shouting:

"Put Jones out!" "We want Morris."

Two hundred of Morris' friends followed him out of the hall. Most of the remaining delegates left their chairs and many of them surged toward the speaker's platform. Jones was pointing for order in vain. Ten policemen under a lieutenant appeared and mingled with the crowd.

Some seized Jones by his coat-tails and pulled him backwards. He fell to his knees, but was not hurt. Finally he abandoned his attempt to preside and mingled
